## *Nine brand new buses deployed to cover Line 8*

**LE BUS** has entered another phase of its operations by launching Line 8 that runs from Mendong to the Ministry of Posts and Telecommunications.

The profitable line was launched on Monday 2 September 2006. Since then, commuters have been avoiding taxis, preferring to stand on long lines at bus stops to ride the buses.

Press Reports monitored in Yaoundé have unanimously written about positive reactions from bus riders. In the bilingual news daily **Cameroon Tribune** of Thursday 5 October 2006, Jocelyne Ndouyou-Mouliom describes how the inhabitants of Mendong have adopted the buses. Most of the riders she interviewed praised the comfort, space, video and air conditioning in the buses. The fare of 150 FCFA is considered by most as affordable and cheaper. Some even explained that the buses are punctual at the bus stops. Some riders were

marvelled to see women as drivers of some of the buses. The controllers were hailed for having cash to serve balances to riders as the latter buy tickets. One of the controllers, Amang Garba explained to the curious reporter that the buses leave their base as early as 4.45am to start running at 5.00am. He said that the hierarchy has given firm instructions against overloading the buses that carry a maximum of 100 riders at a time.

The Operations team is meeting up with new challenges by deploying human and material resources to make sure that operations on this line go hitch-free.

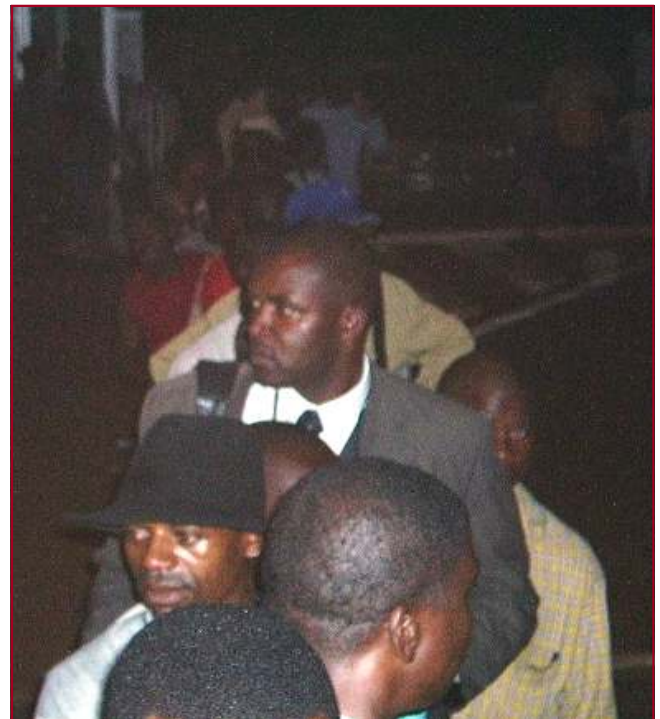

According to Gelain Siemendje and Fubis Joseph of the Operations Department, Nine buses have been deployed to Line 8 to meet the unexpected rise in the number of riders per day. The buses, drivers, controllers and security staff are rotated with efficiency to work smoothly.

# Mendong has a high Population Density

*Riders waiting to board the bus*

The Management of **Le Bus** has warmly received the good news coming from Line 8 as it confirms the expectations stated in the Business Plan. **Le Bus** remains confident that as more lines are opened in Yaoundé, more Cameroonians will become relieved by the services offered by the comfortable buses.
